

The 3rd International Workshop on BSM Frontiers: Where to Next?

Wednesday, 21 August 2024

Parallel talks (2) (14:30 - 15:50)

time	[id]	title	presenter
14:30	[1]	Lam-Tung relation breaking in Z boson production as a probe of SMEFT effects	Prof. YAN, Bin
14:50	[3]	Recent progress of Dark SHINE R&D	SUN, Tong
15:10	[4]	Recent ATLAS results of Dark Matter and Dark Photon combinations, and Dark Higgs searches	VU, Ngoc Khanh
15:30	[7]	Spontaneous CP violation in supersymmetric QCD	NAKAGAWA, Shota

Parallel talks (2) (16:30 - 17:50)

time	[id]	title	presenter
16:30	[14]	Probing Anomalous Gauge Couplings in Multi-Boson Physics with Machine Learning	Prof. GUO, Yu-Chen
16:50	[36]	Lepton flavor of four-fermion operator and fermion portal dark matter	LI, Gang
17:10	[28]	The neutral scalars under the LHC	SU, Wei
17:30	[46]	Matter asymmetry from Z_N symmetric dark matter-companion	KANG, Zhaofeng
