

## Three-channel $D\pi$ scattering from lattice QCD

*Monday, 12 May 2025 17:15 (20 minutes)*

In this talk, I will present our recent follow-up lattice study building on our previous single-channel  $D\pi$  analysis (PRD 111, 014503 (2025)). In particular, I will discuss the two-pole structure of the  $D_0^{**}(2300)$  resonance.
