

International Workshop: New Frontiers in Extremely Strongly Interacting Quantum Matter: Transport Dynamics, Quantum Hydrodynamics and Topological Matter

July 19-23, 2021

INVITED SPEAKERS:

Nick Bonesteel (Florida State University)
Meng Cheng (Yale University)
Wang Da (Nanjing University)
Israel Klich (The University of Virginia)
Mark Ku (The University of Delaware)
Sung Sik Lee (Perimeter Institute)
Xiongjun Liu (Peking University)
Zhao Liu (Zhejiang University)
Jian Li (Westlake University)
Sergej Moroz (Technique University of Munich)
Yusuke Nishida (Tokyo University of Technology)
Sri Raghu (Stanford University)
Gordon Semenoff (University of British Columbia)
Chenjie Wang (The University of Hong Kong)
Hong Yao (Tsinghua University)
Jan Zaanen (Leiden University)
Shizhong Zhang (The University of Hong Kong)
Wei Zhu (Westlake University)

ORGANIZING COMMITTEE:

Zhengcheng Gu (The Chinese University of Hong Kong, Hong Kong)
Congjun Wu (Westlake University, Hangzhou)
Kun Yang (Florida State University, Tallahassee)
Fei Zhou (University of British Columbia, Vancouver)

LOCATION:

Lecture Hall 200 of Tsung-Dao Lee Institute
(East Wing of Yue-Kong Pao Library),
800 Dongchuan Road, Shanghai

WEBPAGE:
