

The 4th International BSM Workshop: Building for Tomorrow

Monday, 25 August 2025

Parallel talks (1) - Tsung-Dao Lee Institute/N6F-N600 - Lecture Room (13:30 - 15:10)

time	[id]	title	presenter
13:30	[93]	Probing ultralight dark matter in the wilderness	ARZA, Ariel
13:50	[96]	Little Red Dots from Small-Scale Primordial Black Hole Clustering	Mr ZHANG, Borui
14:10	[97]	Long lived Particle searches of Higgs sector	SU, Wei
14:30	[102]	Abelian-Higgs vortices in the oscillating axion background	Mr NAKAGAWA, Shota
14:50	[103]	Chiral gravitational wave background from axion-like fields	ZHANG, Yun-Long

Parallel talks (1) - Tsung-Dao Lee Institute/N6F-N600 - Lecture Room (15:40 - 17:00)

time	[id]	title	presenter
15:40	[104]	Induced Domain Walls of QCD Axion, and Gravitational Waves	LEE, Junseok
16:00	[110]	Bias with a Timer: Axion Domain Wall Decay and Dark Matter	HAO, Yuxuan
16:20	[111]	Boosted dark matter in white dwarfs	HOR, Shihwen
16:40	[113]	Composite Asymmetric Dark Matter from Primordial Black Holes	UCHIDA, Yoshiki
