

每周小结

Weekly Summary

周柏宏

2025年11月26日星期三

李政道研究所
TSUNG-DAO LEE INSTITUTE

● Finished

- **Same sign WW Polarization**

- ✓ Updated the MC23 sample list;
- ✓ Added the ssWW-MC23 to pipeline;
- ✓ Adjusted the trigger list based on the latest recommendation;

- **Xbb Calibration**

- ✓ Successfully produced all Run2 samples with systematics;
- ✓ Processing the samples with coffea (zcalibrationntuples);
- ✓ Checked the fitting results for mc20d with 0.25 WP using ZCalibrationFitter;

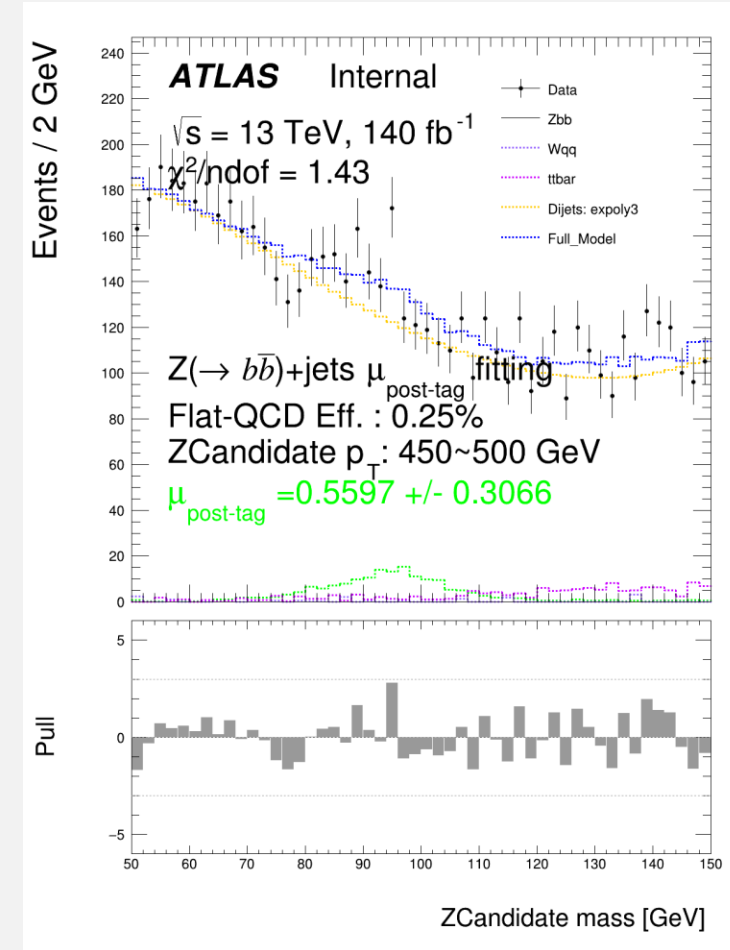

• Xbb - Fitting (mc20d (WP: 0.25, pT1))

- The fitting results for μ , only considering the stat and the MC unc.;

Currently:
 $\mu = 0.49 \pm 0.3$

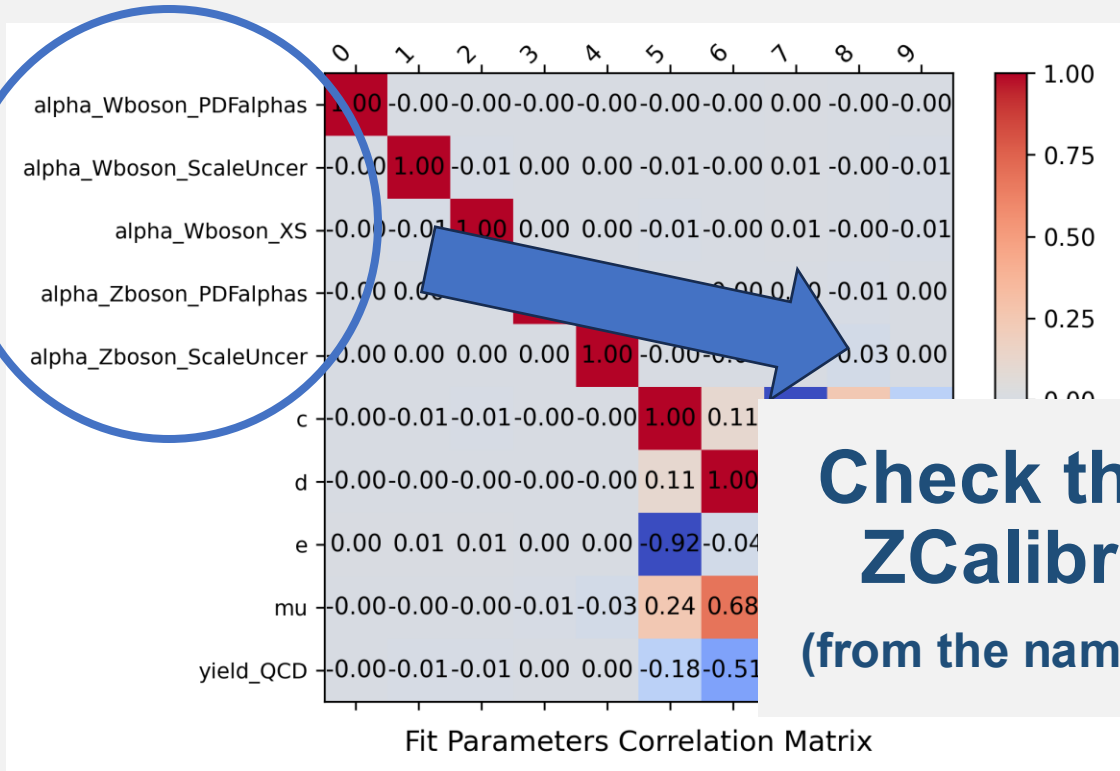

**The diff is
within 1σ**

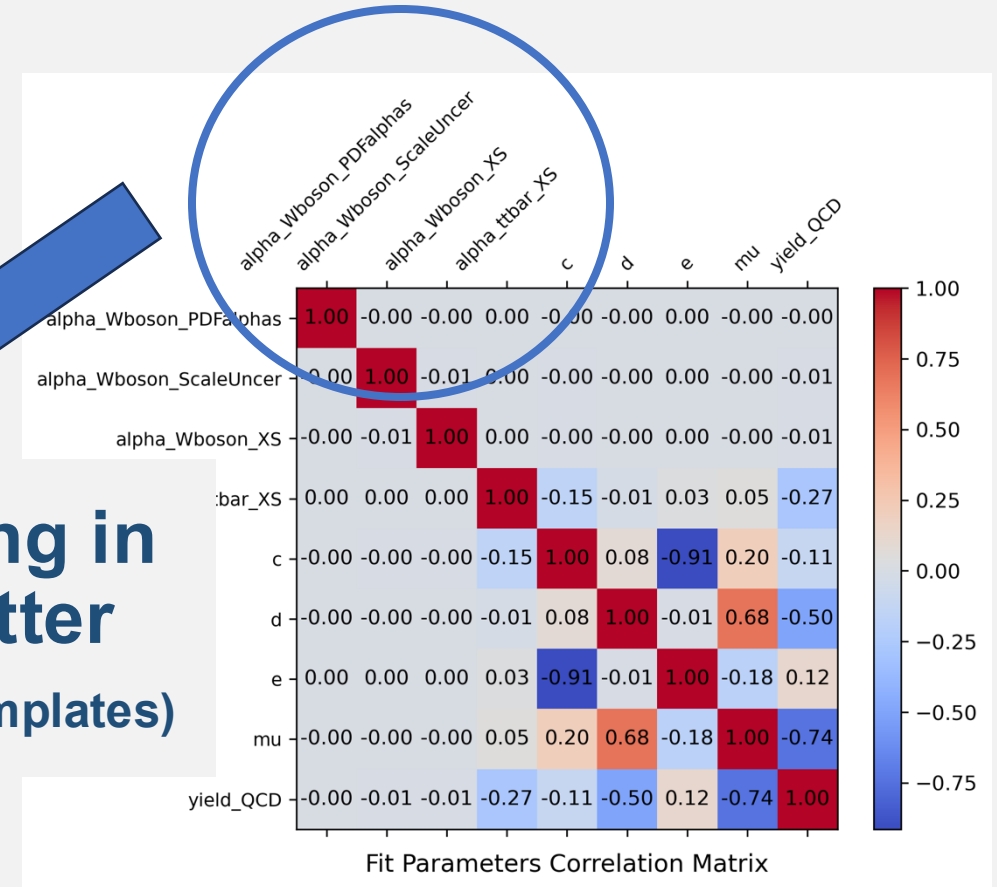

Previous:
 $\mu = 0.56 \pm 0.3$

• Xbb - Fitting (mc20d (WP: 0.25, pT1))

- The fitting results for μ , only considering the stat and the MC unc.;

Current Correlation Matrix

Previous Correlation Matrix

● ssWW - Missing Samples List

Samples for mc23 could not be found in the PMG Twiki (but found in mc20):

Process	Sample Name	Explanation
WZ EW	MGPY8EG_NNPdf30NLO_A14NNPDF23LO_IvlljEW6_SFMinus	The Sherpa_2214 sample could be found for mc23 (for Run3 WZ analysis, they are using this)
	MGPY8EG_NNPdf30NLO_A14NNPDF23LO_IvlljEW6_SFPlus	
	MGPY8EG_NNPdf30NLO_A14NNPDF23LO_IvlljEW6_OFPlus	
	MGPY8EG_NNPdf30NLO_A14NNPDF23LO_IvlljEW6_OFMinus	
TopV	MadGraphPythia8EvtGen_A14_tZ_4fl_tchan_noAllHad	
	aMcAtNloPythia8EvtGen_MEN30NLO_A14N23LO_ttW	
	MadGraphPythia8EvtGen_A14NNPDF23_ttbarWW	
Vjets	All samples with MGPY8EG generator	Mc23e could not be found (Due to Madgraph updates)

● ssWW - Missing Samples List

Samples for mc23 could not be found in the PMG Twiki (but found in mc20):

Process	Sample Name	Solution
WZ EW	MGPy8EG_NNPDF30NLO_A14NNPDF23LO_IvlljjEW6_SFMinus	Change to Sherpa_2214 sample
	MGPy8EG_NNPDF30NLO_A14NNPDF23LO_IvlljjEW6_SFPlus	
	MGPy8EG_NNPDF30NLO_A14NNPDF23LO_IvlljjEW6_OFPlus	
	MGPy8EG_NNPDF30NLO_A14NNPDF23LO_IvlljjEW6_OFMinus	
TopV	MadGraphPythia8EvtGen_A14_tZ_4fl_tchan_noAllHad	(tZ and ttWW have been found, tW would change to Sherpa samples)
	aMcAtNloPythia8EvtGen_MEN30NLO_A14N23LO_ttW	
	MadGraphPythia8EvtGen_A14NNPDF23_ttbarWW	
Vjets	All samples with MGPy8EG generator	Change to Sherpa_2214 sample

● Plan

- **Dark SHINE**

- Do rough hyper-parameter scans;

- **ssWW Polarization**

- Derive the final results for the significance;
 - Push the MC23 related codes to the main branch;

- **Zbbj Calibration**

- Reply all the comments and merge my MR;
 - Checked the latest fitting framework;

- **$H \rightarrow WW$ Quantum Entanglement**

- Talk with Danning for the following tasks;

- **$H \rightarrow \gamma^* \gamma$**

- Waiting for Danning to provide the full sysys workspace;
